

METRO-MIX[®] PROFESSIONAL MIXES

Sun-Gro Horticulture's Metro-Mix series offers a broad range of applications ranging from small cell-packs to large containers.

All formulas are pH adjusted, contain a starter nutrient charge, and a long-lasting wetting agent.

Metro-Mix[®] 300

A good choice for a wide range of crops growing in mid to large size containers, Metro-Mix 300 may be used in indoor or outdoor landscape installation and with large specimen plants. It is excellent for those looking for a mix high in bark and vermiculite content.

vermiculite, composted pine bark and bark ash, canadian sphagnum peat moss, coarse perlite, starter nutrient charge (with gypsum) and slow release nitrogen, dolomitic limestone, and long-lasting wetting agent

AVAILABLE PACKAGE SIZING:

2.8 CU FT BAGS/40 PER PALLET

Metro-Mix[®] 360

Metro-Mix 360 is Sun-Gro's most popular Metro-Mix formulation. It is a great mix for a wide range of crop types and container styles including hanging baskets. Metro-Mix 360 also contains additional aggregate for increased drainage.

canadian sphagnum peat moss, vermiculite, composted pine bark and bark ash, starter nutrient charge (with gypsum) and slow release nitrogen, dolomitic limestone, and long-lasting wetting agent

AVAILABLE PACKAGE SIZING:

2.8 CU FT BAGS/45 PER PALLET

Metro-Mix[®] GBX

Metro-Mix GBX is a well-drained mix with fine to medium texture. It is recommended for use with a variety of crops in smaller containers, from cell packs to hanging baskets.

canadian sphagnum peat moss, bark, perlite, vermiculite, starter nutrient charge (with gypsum) and slow release nitrogen, dolomitic limestone, and long-lasting wetting agent

AVAILABLE PACKAGE SIZING:

2.8 CU FT BAGS/40 PER PALLET
