

GRACO FERTILIZER COMPANY

5-10-15 DELUXE

Easy to Use

- *An excellent all-purpose plant food
- *Ideal for all varieties of vegetables, flowers, shrubs, and trees
- *A balanced plant food- contains minor elements for stronger plants

DIRECTIONS FOR USE

*Always water after applying fertilizer.

VEGETABLE GARDENS AND FLOWER BEDS

Before planting use five (5) pounds of 5-10-15 to 100 square feet of area and work into the top four or five inches of soil. To side dress, during growing season spread a small amount in a shallow trench on each side of plant, approximately three inches from stalk. For individual flower plants in the garden, scatter lightly around the plant and work into the top soil.

SHRUBS

When planting, dig the hole larger than plant root ball and mix one handful with this soil before replacing. Established shrubs should be side dressed with one or more handfuls worked in the top of soil lightly. Early spring is the best time to apply. Apply peat moss or mulch around shrubs and bushes. Keep well watered during dry weather.

TREES

Broadcast or apply in holes made by a sharp instrument beneath and a few inches beyond the branch spread. Five (5) pounds to each 100 square feet once yearly is sufficient.

POTTED PLANTS

Use 1/2 teaspoon for each six inch pot about once each month. Increase or decrease in proportion for smaller or larger pots. Mix into surface and water thoroughly, or water plants monthly with a solution of 1/2 teaspoon mixed thoroughly in one cup of water.

WINDOW BOXES

Use one (1) tablespoon for each square foot of box area each month. Work into top soil lightly and water in.

CAUTION

For your safety it is recommended that you keep this product (and all fertilizers) out of the reach of children. This product may be harmful if swallowed and may cause skin and eye irritation. Avoid breathing of dust and contact with skin and eyes. Wash with soap and water after handling. If in eyes, flood with water for 15 minutes and repeat if necessary. This product may stain sidewalks and drives. Sweep off any product which may have drifted onto these areas.
