ALWAYS WATER AFTER APPLYING FERTILIZER

DESCRIPTION:
Wendell recommends using his fabulous "Bloom Buster" fertilizer to "encourage prolific blooms" on your flowers. Applying at a rate of 14 pounds per 1,000 square feet will result in 2 pounds of phosphorus to stimulate blooming! This slow release material will gently feed your plants for up to 3 months, and, like Wendell says, is "the ideal choice for all your flowering plants".

CAUTION
For your safety it is recommended that you keep this product (and all fertilizers) out of the reach of children. This product may be harmful if swallowed and may cause skin and eye irritation. Avoid breathing of dust and contact with skin and eyes. Wash with soap and water after handling. If in eyes, flood with water 15 minutes and repeat if necessary. This product may stain sidewalks and drives. Sweep off any product which may have drifted onto these areas.
